EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Williams on 10/13/05.

The application has been amended as follows:

- Claim 1: At the end of the claim, after the word "tampering", please insert --; wherein said electrically conductive connector element is a metal screw that is received in a threaded opening in said second enclosure member--.
- Please cancel claim 2.
- Please change the dependency of claim 3 from claim 2 to claim 1.
- Claim 8: At the end of the claim, after the word "member", please insert --; wherein said conductive connector is a metal screw extending from said first enclosure member and received in a threaded opening in said enclosure member--.
- Please cancel claim 9.
- Please change the dependency of claim 10 from claim 9 to claim 8.

2. Claims 1, 3-8, and 10-12 are allowed.

Art Unit: 2636

3. The following is an examiner's statement of reasons for allowance:

The distinctive element of the applied invention is that the series circuit is connected through the metal screw and not just a "connector element". The **Miglioli** reference uses a washer as the conductive element, which is different than the applied claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
